# Welcome to Evelyn Scott School

Evelyn Scott School is a 'Future Focused' school, we learn through an inquiry-based approach that connects learners and their learning to their world. We lead our community to engage with the ACT's *Future of Education Strategy* and all of its possibilities. Contemporary learning means preparing for a shifting future that requires skills and knowledge, citizenship, connection to culture and the environment and the capacity to solve complex problems with creative approaches.

Evelyn Scott School prepares learners for the 21st Century. They will build their capacity to solve problems, be critical thinkers and self directed learners. Through collaboration and effective communication, they will be inspired to navigate their futures and become life long learners.

These voluntary payments contribute towards the running of the school and educational resources for the preschool. Payment details are included in family information packs and on our website under the 'Notes' tab.

## Resources for Learning

Families are able to purchase their annual book pack for each child through our local supplier, Blue Ink. The book pack contains consumables used in the classroom throughout the year. Once purchased, the **entire** book pack will be sent to the school in Week 1 of Term 1. Families will receive an email regarding how to order book packs with a special ESS code, prior to the start of the next school year.

These items **do not** need to be labelled and books **do not** need to be covered prior to starting school. Book pack prices may vary slightly depending on the year level of your child. More information regarding ordering will be provided to families prior to the start of the 2023 school year.

## The Australian Curriculum

Evelyn Scott School uses the [Australian Curriculum](#) to guide experiences for learners K-10. The framework's vision is for all children to experience learning that is engaging and builds success for life.

Evelyn Scott School uses an inquiry approach to teaching and learning. Inquiry learning is an education approach that focuses on investigation and problem-solving.

Inquiry-based learning is different from traditional approaches because it reverses the order of learning. Instead of presenting information, or 'the answer', upfront, teachers start with a range of scenarios, provocations, questions and problems for learners to navigate.

Inquiry-based learning prioritises problems that require critical and creative thinking so learners can develop their abilities to ask questions, design investigations, interpret evidence, form explanations and arguments, and communicate findings.

The Australian Curriculum is designed to help all young Australians to become successful learners, confident and creative individuals, and active and informed citizens. Presented as a developmental sequence of learning from Foundation - Year 10, the Australian Curriculum describes to teachers, parents, learners and others in the wider community what is to be taught and the quality of learning expected of young people as they progress through school.

## School Uniform

"Childhood is about doing. It is about process, action, adventure, motion, trial, error, exploration, discovery, searching, connecting and probing- we call this play"

At Evelyn Scott School we encourage children to be comfortable so they are able to play and learn. We offer a variety of uniform options that are comfortable hard wearing, sustainably sourced and easy to care for.

We encourage children to wear closed toed shoes to keep little toes safe and for ease of play.

The Evelyn Scott uniform showcases the school's Reed-Warbler logo on a navy backdrop and is the core piece of the uniform. This is coordinated with black bottoms in the form of skorts, shorts, pants and skirts. A trans seasonal dress is also available for purchase. Please visit our school's website to purchase school uniforms under the '[Enrolling Your Child](#)' tab. Additional information regarding uniforms will be emailed to families prior to the end of the year.

## Houses become Bunjis

'Bunji' is an Aboriginal term that means "a mate, a close friend a kinsman" (from Warlpiri and other languages of the Northern Territory and northern Queensland).

We acknowledge that the term 'house' is founded on conservative ideals from a bygone era and we wish to reflect the contemporary nature and philosophy of the school which we have co-created this year. We have sought permission from the EDU Aboriginal and Torres Strait Islander Education Team and we will utilise the term 'Bunji' in place of the term 'House'.

At the commencement of 2021 we asked our community to vote for Bunji names and colours and the results were:

**1. Norris - (Emerald)** Named after Dame Ada Norris DBE, CMG was president of the National Council of Women of Victoria from 1951-54 and national president from 1967-70 where she contributed to shaping public opinion and influencing legislation about issues of women's rights, status and opportunities.

**2. Rigby - (Purple)** Named after Norma Rigby MBE who helped to establish Canberra's Koomarri school and spent much of her life working for the rights of people with a disability or mental illness

**3. Golgerth - (Aqua/Light Blue)** Named after Joyce Golgerth, anti-conscription activist

**4. Felstead - (Burnt orange)** Named after Minnie Felstead, union organiser and advocate for women's rights

These Bunji names and colours were selected by the school community to reflect some of the street names in the suburb of Denman Prospect where our school has been built. These names also honour some of Australia's most highly accomplished women advocates.

Learners are placed into Bunjis when they join Evelyn Scott School and will stay in their Bunjis from Preschool to Year 10. Learners come together in their Bunjis across our school sporting events and in their classroom activities. Coloured Bunji polo shirts are available to purchase from our online uniform supplier.

## Our Community

Evelyn Scott School is a school in the heart of a new suburb. We will strive to create a connected community where all members of our community feel a sense of belonging and their voice is heard.

Together, as a community of staff, children and families we will create a safe, collaborative, connected learning environment. We nurture independence, resilience and regulation through respectful relationships, encouraging every child to reach their full potential. We value a culture where high expectations, respectful and effective communication is developed through community partnerships.
